## Tersely Told

Replies to want ads at this office to be called for: "F," "C," "N. P.," "S. R. Co.," "R. L. D.," "A. B. C.," "N. B.," "Reference," "Farm," "Filer," "Woodsman," "W. B. B.," "Owners are earnestly requested to call for their replies.

Don't let the servant problem worry you as long as you have The Journal's want columns open to you at such small cost. The better class of colored people read The Journal.

Many tenders of assistance from the outside are being received, among them being one from the Meyer Bros. Drug Co. of St. Louis, and another from Forsheim & Co., shoe men, of Chicago. The latter offer was contained in a letter to C. Thiesen.

W. H. Knowles reached Pensacola from New York City Sunday, having started south as soon as he learned of the storm. Mr. Knowles' bay front residence, while badly damaged, is found to be in better condition than at first thought, the destruction of the veranda being the chief injury to it.

Anthony Borrass, who had a house down on the beach east of Muscogee wharf which was entirely demolished by the storm, was yesterday exhibiting the looking glass of a dresser which he had fished out from under the debris of his house and which had not been injured in the least. The glass was about 18x36 inches in size.

L. G. Aymard, who has been connected with the circuit clerks' office for the past year in the capacity of deputy clerk, was resigned his position yesterday, his resignation being effective immediately. He is contemplating emigrating in business in this city. Mr. Aymard was a courteous and competent official and served the public in a most pleasing manner. Clerk McMillan has not yet named a deputy clerk, but will probably do so within a few days.

The many friends of Engineer Harry Jeanette, who was injured in the wreck on the Southern Alabama division last week by the train running into a washout, will be pleased to learn that he will recover from his injuries, which at first were thought to be quite serious. The engineer was considerably bruised and in pretty bad shape when he was taken from the wreck, but the latest reports from him are that he is getting along nicely.

Insist on having Blue Ribbon Lemon and Vanilla. Absolutely pure, twice as far and the "Blue Ribbon Flavor" is perfection. Ask for the 25c size.

## S.S.S. A CERTAIN SAFE TREATMENT

Even if mercury and potash could cure Contagious Blood Poison the condition in which these strong minerals leave the system would make the cure worse than the disease. But they cannot cure the vile disorder; they can only cover up the symptoms for awhile to break out with renewed violence when the treatment is left off. When the virus of Contagious Blood Poison enters the blood the entire circulation becomes poisoned, and the loathsome symptoms begin to appear. The mouth and throat ulcerate, hair and eyebrows come out, glands of the neck and groin swell, copper-colored spots appear on the body, and in severe cases sores and ulcers break out, and even the bones become diseased. S. S. S. is the only certain, safe cure for Contagious Blood Poison; thousands have been cured by it after failing with the mineral treatment, Hot Springs, etc. It is the only remedy that is able to get at the root of the disease and force out the poison so that no signs are ever seen again. S. S. S. is purely vegetable, being made of roots, herbs and barks, and never leaves any bad effects, but instead, tones up the stomach and digestion and builds up every part of the system while removing the poison from the blood. Book with instructions for self treatment and medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## CONDITION OF THE WEATHER BULLETINED

Special Bulletins Were Issued Yesterday From Office of Observer.

In order to satisfy the anxious public Weather Observer Reed yesterday issued special bulletins on the weather conditions, giving information of a disturbance over the Western Caribbean sea. Bulletin was as follows:

**Caribbean Sea Storm.**  
Received 8:20 a. m. Oct. 1st dated Washington, D. C., September 30th, 1906: "Advisory warning issued 1:15 p. m. Disturbance over Caribbean sea apparently moving toward Yucatan channel. Dangerous for shipping West Cuban coasts for next few days."

**The Regular Forecast.**  
Regular 8 a. m. forecast from Washington, D. C., Oct. 1st, received 10:30 a. m.—For western Florida: Rain tonight and probably Tuesday. Fresh to brisk northwest to north winds on the coast.

**Conditions Unsettled.**  
Received 11:34 a. m., dated Washington, D. C., Oct. 1st, 1906: "Conditions very unsettled over Gulf and southeastern coasts. Sailing vessels and low-powered steamers advised to remain in port."

**No Weather Summary.**  
No message from regular observing stations have been received up to 11:40 a. m., and it is therefore not possible to give the public a summary of weather conditions over the country this morning. Later reports will be issued when received.  
Wm. F. REED, JR., Observer.

**Storm Warnings.**  
Received 12 noon, from Washington, D. C.—Northeast storm warning, 11 a. m., for Carrabelle, Cedar Key, Dunnellon, Tampa, Punta Gorda, Punta Rassa, Miami, Jupiter, Jacksonville, Savannah, Charleston. Disturbance in southeastern Gulf apparently moving towards Florida coast. Southeast storm warnings are displayed at Key West.

**Barometer Reading.**  
Barometer at 7 a. m. 29.72 inches.  
Barometer at 11 a. m. 29.72 inches.  
Barometer at 12 noon 29.68 inches.  
Barometer at 5 p. m. 29.62 inches.  
Barometer at 7 p. m. 29.68 inches.  
Barometer at 11:30 p. m. 29.66 inches.  
Rainfall 24 hours ending 7 a. m. 1.66 inches.  
Rainfall 7 a. m. to 12 noon 2.67 inches.

**Nothing to Fear.**  
Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. For sale by all druggists.

**Torments of Tetters and Eczema Alleviated.**

The intense itching characteristic of eczema, tetters and like skin diseases is instantly alleviated by applying Chamberlain's Salve and many severe cases have been permanently cured by its use. For sale by all druggists.

## TWO TRAINS WERE LOST

Two solid trains of freight bound for Pensacola from points over the P. & A. division were lost in the hurricane, and not only was the freight lost, but the cars carried away as well, and all that is left are two engines, buried under tons of sand.

The two trains got somewhere near the Escambia trestle and there stopped, as the water put out the fires in the fire boxes. The crews left and sought safety, and the water which covered all of that section, undermined the tracks, and the cars toppled over and all were carried away. About sixty car loads of freight are estimated to have been lost.

## SALT MARSH ARRIVES AND DID NOT FEEL STORM.

The British steamer E. O. Saltmarsh, now plying between Pensacola and Liverpool, arrived in port yesterday. She came by way of Tampa where she loaded a part cargo of phosphate rock.

The vessel did not feel the storm, and the master was surprised when he arrived in port to find such a condition existing.

(Continued from page one.)

while merchants and business men were putting their place in condition and business will assume normal conditions in a few days. The push and energy with which the work has started means that those places destroyed and condemned will be rebuilt, and that, too, with more handsome, modern and commodious buildings.

**More Deaths Reported.**  
Six more deaths, not heretofore reported, were announced yesterday, making a total of 29 victims of the hurricane. When the fishing schooner Oak was wrecked, Frank Blitchey, one of the seamen, was lost. The others of the crew had a terrible experience, as has been related, and only succeeded in saving themselves after hours of struggling.

Two small children, who were last seen in a house near Mary Esther, and whose names are unknown, are reported missing, and cannot be found, although search has been made.

Two bodies, those of section hands of the L. & N., have been found near Escambia bridge, where they were drowned. The section boss there reported that the last seen of four of his men they were cut off from land near Escambia bridge and standing in water to their waists. It is probable that the other two have also been lost.

Leslie Shepard, a colored man, who was employed in the Robinson Point mills, and whose home was in this city, was among the victims. He was in a house there and did not leave with the others. His body was recovered yesterday.

The bodies of the two section hands found on the beach were so badly swollen and decomposed that it was impossible to handle them, and they were buried on the beach.

Reports of the finding of other bodies in various sections of the city were heard during the day and night, especially in the western section of the city, but the rumors could not be confirmed.

## SAGE LEAVES

**Special to The Journal.**  
Brent, Sept. 29.—That equinoctial storm came as a tropical hurricane with September floods of rain.

Wednesday night will long be remembered by thousands who could not sleep for the terrifying gales that only lulled a few seconds to double their furious howls.

In its effects through the country it greatly resembled the unprecedented calamity of 1896, both in rainfall and wind velocity. Crops, trees and fences are completely wrecked. In the city all records of the past century have been broken. The higher tide, and wonderful growth of the metropolis made unprecedented destruction.

The tall buildings concentrate the wind's force about their base, as the piers in a river seem to madden the angry current.

Bill Hutchins' house danced off its foundation, upsetting the contents in general. A lighted lamp fell off the piano and broke into flames. Bill succeeded in smothering the fire with bedding and they survived through the night in a broken house and total darkness.

The fertilizer factory was very badly torn up. At Saunders mills there was not a smokestack standing. The new saw mill shed was leaning to the westward at near an angle of 45 degrees.

The old mill was the only plant that seemed to be in operation throughout the Goulding industrial section.

Last Sabbath Mr. Alfred Clopton accompanied his cousin, Miss Fannie Wright as far as Mobile, where she was met by her brother from Hattiesburg, Miss., to escort her home.

While waiting a few hours at Mobile they met up with a Mobile cousin who formerly resided in Texas; and he reports quite an entertaining reunion.

Uncle Sam proposes to establish the No. 2 rural mail route if 84 interested families agree to procure mail

New Method Laundry Building.

This handsome building had only been completed, but it was entirely unroofed by the storm and the interior heavily damaged.

# It is Easy

To brand a beer "Pure," but actual purity means to double the cost of the brewing. That is how we attain it.

Schlitz beer is brewed in absolute cleanliness, and cooled in filtered air. Then it is aged for months to avoid causing biliousness, then filtered through white wood pulp. Then every bottle is sterilized.

That is why

Schlitz is

unique

for its

purity.

Ask for the Brewery Bottling.

Common beer is sometimes substituted for Schlitz.

To avoid being imposed upon, see that the cork or crown is branded

**Schlitz**

boxes for the service, on the line. Neighborhood groups are allowed to use one box; but not in excess of five families.

We have an occasional wedding at Brent to keep up the family circles. Last Sabbath Mr. Henry Brown, an operator at the brick yard, took Miss Cleo Johnson to be his loving wife.

The ceremony took place at the home of the bride's parents, at 5 o'clock in the evening.

The charmed and charming couple made their appearance at church Sunday night, as one—(won.) May they live long and be ever happy.

Clopton Brothers have enclosed about two acres of elegant sand for the recreation of their (re-) tired horses and mules.

**Sick Headache Cured.**  
Sick headache is caused by derangement of the stomach and by indigestion. Chamberlain's Stomach and Liver Tablets correct these disorders and effect a cure. By taking these tablets as soon as the first indication of the disease appears, the attack may be warded off. For sale by all druggists.

## Amusments

"Nothing Doing" is still the cry of the Opera House, and neither "The Toast of the Town" or "Bankers and Brokers" will be seen here this week.

It is, however, expected that the roof of the house which was put out of business by the storm last week—will be repaired by Saturday, on which date Murray and Mack are billed to appear here.

**SCANDANAVIAN CHURCH IS CARING FOR DESTITUTE.**

The Scandinavian church on South Palafox street has been converted into a temporary place of refuge and many sailors from wrecked foreign vessels are being cared for at that place.

Many of the vessels, which were riding safely at anchor a week ago, are wrecks upon the beach, and the crews had no places to sleep at home. The pastor and members of the congregation have converted the church into a place for them, coats being placed there in large numbers, and a lunch counter being maintained.

## The Oriole's Return.

The members of the Oriole baseball team, who went to DeFuniak early last week to play a series of three games, have returned, having been delayed several days, and playing a series of four games instead of three. The locals succeeded in tying the score in two of the games, and winning one of the remaining two.

## SUN AND SNOW.

Sometimes Help the Hair to Go.

In any changeable climate the hair is apt to become brittle and to break off stubby here and there. This makes a hair-dressing almost a necessity, especially to ladies. In using a hair dressing why not get the best, one that combines with it the efficiency in killing the dandruff germ, the germ that eats the hair off at the roots, causing what is called falling hair, and sometimes baldness. Newbro's Herpicide is that kind of a hair dressing. You have no idea how delightful your scalp will feel, and how stylish your hair will appear, after an application or two of Herpicide. It is certainly a wonderful innovation as a scalp antiseptic and hair-dressing.

For sale by W. A. D'Alemberte, druggist and apothecary, 121 South Palafox street, or send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

## Short Talks on Tailoring

Right here is where some tailors way up fall down.

If a roll is formed in front of the arm, extending towards the chin, it's probably due to incorrect cutting. The vest should be "straightened" but tailors who don't know how, remove the roll by taking in a "dart."

Sometimes this fullness is caused by the tailor stretching the arm hole.

If you want it right, come to us. "Short Talks on Tailoring." Advice for the man who buys tailoring. Call or send for copy.
